Application/Control Number: 09/852,805

Art Unit: 2141

1. Claims 1-41 are presented for examination.

2. Applicant's election with traverse of claims 18-41 in the reply filed on 9/16/2004 is

Page 2

acknowledged. The traversal is on the ground(s) that no serious burden is presented to

consider all of the claims in a single application. This is not found persuasive because

there are two independent and distinct inventions are claimed in a single application as

stated by Examiner in previous Office Action. Applicant also clearly described multiple

embodiments in the specification. Therefore, it is a serious burden on Examiner to

examine all claims 1-41 because Examiner is required to spend double amount of time

to search for prior art for the two distinct inventions.

3. Applicant is required to cancel non-elected claims 1-17 in responding to this

Office Action.

4. The title of the invention is not descriptive. A new title is required that is clearly

indicative of the invention to which the claims are directed.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102

that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 18 and 24 are rejected under 35 U.S.C. § 102(b) as being clearly anticipated by Kuzma patent no. 5,781,901.

7. As to claim 18, Kuzma teaches the invention as claimed, including a contents delivery system, comprising:

a communication network (col. 5 lines 51-65; Internet);

a data transmitter for transmitting contents, said data transmitter being connected to said communication network (col. 3 lines 16-43; col. 4 line 65 - col. 5 line 3); and

a data receiver for receiving said contents, said data receiver being connected to said communication network (col. 5 lines 51-65),

wherein a server, which stores said contents to be received by said data receiver, is connected to said communication network (col. 5 lines 51-65; WWW HTTP server),

a name of said server and a storing path of said contents to be received by said data receiver are written in said electronic mail (col. 5 lines 51-65, URL), and

said data receiver has a unit for accessing said server written in said electronic mail and downloading said contents from said server via said storing path written in said electronic mail (col. 5 lines 51-65; col. 6 lines 4-59).

8. As to claim 24, Kuzma inherently teaches said contents can be music data, and said receiver can reproduce said music data (col. 1 lines 21-33; col. 2 lines 24-31).

Application/Control Number: 09/852,805

Art Unit: 2141

Page 4

9. Claims 19-23 and 25-41 are objected to as being dependent upon a rejected

base claim, but would be allowable if rewritten in independent form including all of the

limitations of the base claim and any intervening claims.

10. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Le H Luu whose telephone number is 571-272-3884.

The examiner can normally be reached on 7:00am - 4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Rupal Dharia can be reached on 571-272-3880. The fax phone number for

the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
